Get Building
Halifax, NS
2024

Diploma of Dental Hygiene
Dalhousie University
2015

SKILLS

Frontend
- React
- React Native
- Next.js
- Typescript

Backend
- Node.js
- Express
- PostgreSQL
- Supabase

Other
- Git
- RESTful API Design
- Auth (JWT, OAuth)
- Patient Care & Education

Full-stack software developer with a background in healthcare and a passion for building practical, purpose-built tools. I love bringing ideas to life through responsive, accessible design that makes complex tasks feel simple. After 10 years in patient care, I bring a detail-oriented mindset and a genuine interest in health tech and SaaS products that simplify everyday tasks.

WORK EXPERIENCE

Registered Dental Hygienist
Sackville Dental Centre, Lower Sackville, NS | 2021– present

- Worked closely with patients and dental staff to keep treatments efficient and comfortable. Educating patients on oral health taught me how to make complex ideas easy to understand — a skill I now bring to building user-friendly software.

PROJECTS

HomeKeep – Download on App Store | GitHub
Full-stack Mobile Application – React Native, Expo, Supabase

- Created an app as a new homeowner to make home maintenance easier to manage. First developed with JavaScript/HTML, then rebuilt with React Native for mobile with reminders, task tracking, and analytics — available on the App Store.

OralCheckr – Live Demo | GitHub
Full-stack Web Application – React, Express, PostgreSQL

- Built a web app to give patients a way to track and improve their oral health between visits, with personalized scores, tips, and habit tracking — all through a clean, interactive interface.
